

**Performance Work Statement  
Seaplane ASES & AMES Pilot Training  
DTFAAC-12-M-00081**

**A. PROJECT/TITLE**

The contractor is to provide ASES Airplane Single Engine Sea & AMES Airplane Multiengine Sea Initial ground school and flight training to commercial pilot standards for FAA inspector/pilots in Single & Multiengine Seaplanes.

Seaplane Pilot Training for Flight Standards Operations Inspectors and Aircraft Certification pilots employed by the Federal Aviation Administration (FAA).

**B. BACKGROUND**

Under Title 49 of the United States Code (49 U.S.C.), the FAA is authorized to acquire and expend funds for the acquisition, operation, and maintenance of aircraft as necessary in the exercise and performance of the powers and duties of the Administrator. The interests of the public, the safety of the workforce, and the credibility of the organization are best served by having qualified, proficient, and current inspectors conducting pilot evaluating, testing, and checking functions.

**C. SCOPE**

The contractor is to provide initial ASES or AMES ground school and flight training to FAA inspectors/pilots in the applicable aircraft specified in schedule B. Student quotas for these courses will be assigned by the Flight Standards Service Training Division, AFS-500 or Aircraft Certification Service – Planning and Program Division AIR-500. The courses covered under this contract will meet the requirements for FAA formal flight training. FAA formal flight training consists of training courses with agency level course numbers that will be officially recorded in the employee's personnel records.

**D. DEFINITIONS**

The following definitions are used to define the terminology contained herein and are applicable as required by Title 14 of the Code of Federal Aviation Regulations (14 CFR):

1. Flight Time: Time from the moment the aircraft first moves under its own power for the purpose of flight until the moment the aircraft comes to rest at the next point of landing (block to block time).
2. Approved Training Program: The contractor's FAA approved training course to include only FAA approved (14 CFR) Parts 141 or 142 courses. The contractor must provide documentation of approved training programs by submitting one of the following items: a list of approved courses signed by the 141 school's Principal Operations Inspector or the Part 142 Training Center's training specifications paragraph authorizing their training courses.

## **E. APPLICABLE DOCUMENTS**

Title 14 of the Code of Federal Aviation Regulations (14 CFR), Parts 61, 121, 135, 141, and 142. The applicable regulations are available for download, in pdf format, from [www.faa.gov/regulations\\_policies/faa\\_regulations/](http://www.faa.gov/regulations_policies/faa_regulations/)

Practical Test Standards available at:  
[http://www.faa.gov/training\\_testing/testing/airmen/test\\_standards/](http://www.faa.gov/training_testing/testing/airmen/test_standards/)

FAA Order 4040.9D dated 12/4/1991 or as revised and available for download, in pdf format, from [www.faa.gov](http://www.faa.gov)

Flight training for inspectors is required by FAA order 4040.9, appendix 11 paragraphs 403 and 421.

## **F. GENERAL REQUIREMENTS**

### **1. GENERAL**

(a) If the contractor's FAA approved training program contains less than the minimum required hours of Part I, Schedule B, of this solicitation, the contractor is required to supplement their approved program with additional ground school/simulator/flight training, as appropriate, to achieve the minimum required hours. If the contractor's approved training program contains more hours than the minimum stated in Part 1, Schedule B, then the contractor must submit the training hours in their approved training program.

(b) It should be noted that the minimum required flight training times are per inspector/pilot in the main pilot position. In some cases it is anticipated that additional supplementary training may be required. Supplementary training must be approved in advance on a case by case basis by the Contracting Officer.

(c) Training of FAA inspectors/pilots is not to be conducted between the hours of midnight and 6:00 a.m., including flight simulation pre and post briefings. A maximum of four hours flight simulation instruction per day or eight hours of ground school per day per inspector class is permitted. If ground and flight simulation instruction are combined in a single day then a maximum of ten hours of training per day is permitted. To maintain continuity between flight simulation training sessions, the contractor is requested to minimize the switching of instructors between sessions.

(d) FAA personnel do not ordinarily operate the aircraft in which they are rated on a regular basis. Therefore, it is necessary that they receive the most complete review possible when attending recurrent training. If the contractor's approved program allows for a partial review of systems and procedures during successive recurrent training periods, it is required that the contractor supplement their approved program to achieve a complete review for FAA inspectors/pilots during each recurrent course.

(e) FAA personnel are usually performing other job functions prior to assignment to training and normally do not have time to devote to pre-course study. Additionally, due to circumstances beyond the control of the FAA or the inspector/pilot, an inspector/pilot may be assigned to training with short notice. If the contractor's approved program requires pre-course study prior to the trainee's arrival at the contractor's training facility, the contractor is required to supplement their approved course to allow for required pre-course study to be accomplished at the

contractor's facility after the inspector's/pilot's arrival. Such ground instruction must either be classroom or computer based training.

(f) Inspectors/pilots attending training under this contract should present the contractor with a copy of FAA Form 4040-2, Pilot Flight Record and Application for Check Flight, signed by the inspector's supervisor. If the form is presented, the contractor's instructor or training center evaluator (TCE) shall complete the form and return it to the inspector.

## 2. QUALIFICATIONS

### (a) INITIAL PILOT QUALIFICATION:

The contractor shall provide the ground and flight training necessary to enable the inspector/pilot to meet the requirements for and receive an ASES or AMES Commercial Pilot Certificate Practical Test.

Types of training shall include the following categories:

1. Initial pilot qualification ground school, and;
2. Initial pilot qualification flight training and include an end-of-course test.

### (b) SUPPLEMENTARY TRAINING HOURS:

The Contracting Officer may authorize hours in addition to those specified under Initial Qualification training when required by the individual inspector/pilot to successfully complete the course. These hours shall be provided at the prices set forth in the item entitled "Supplementary Training Hours", Part I, Schedule B. In the event that any inspector/pilot passes the applicable test(s) in less time than the hours indicated in Schedule B, or partially completes training, the contractor shall be paid the rate stated, less a pro rata credit for the unused time at the supplementary rate.

## 3. TRAINING REQUIREMENTS

(a) All instruction must comply with the contractor's approved training program.

(b) FSTD training may be integrated with ground school training if it is a part of the contractor's program.

(c) Ground school instruction shall be presented by a qualified instructor in a classroom environment. If Computer-Based Instruction (CBI) is used to accomplish ground school training then the following requirements shall be met:

- (1) Inspectors/pilots shall receive a thorough briefing on the operation and use of the CBI equipment.
- (2) At least one instructor shall be present or readily accessible by electronic means to resolve any problems or questions that the inspector/pilot may have regarding the material presented in the CBI program.
- (3) All material presented by CBI shall be reviewed and reinforced by a qualified instructor in classroom discussion or one-on-one with the inspector/pilot.

(d) In the event the FAA inspector/pilot fails to report for training as scheduled, or should become ill, injured or incapacitated during the training period the contractor shall promptly notify the COTR and the inspector/pilot's emergency contact if known.

(f) If the inspector/pilot has not passed the applicable end-of course test or proficiency check after completion of the training outlined in Schedule B and in accordance with the specifications herein, the contractor shall withhold further training and promptly notify the COTR who will arrange the authorization of additional training. In the event such inspector/pilot does not complete the full course provided for in the schedule, the contractor shall invoice the FAA for only that pro rata portion of training actually completed per Paragraph F (2)(c) of this PWS and as certified on the Certificate of Training (Appendix A).

(g) The contractor shall notify the COTR of the inspector's/pilot's completion status within 5 working days after completion of the training program.

(h) Upon completion of all training, the contractor shall issue a Certificate of Training (Appendix A). The FAA inspector shall sign the certificate certifying the type of training provided, specific dates, and the duration of such training. One copy of each such certificate shall be submitted to the COTR.

(i) The contractor shall furnish all training aids and facilities which meet the following minimum requirements:

- (1) Sufficient chalk dry erase or electronic boards for effective teaching shall be provided.
- (2) All training aids, including any audio-visuals, mockups, charts or aircraft components listed in the approved training program must be accurate and appropriate to the course for which they are used.
- (3) The classroom shall be well-lighted.
- (4) Inspectors/pilots shall be seated at suitable tables which provide sufficient space for writing and accomplishing assigned tasks.
- (5) The classroom shall be kept clean.
- (6) Sanitary restroom facilities shall be available within convenient distance of the classroom.
- (7) The classroom facilities shall be adequately ventilated, heated in winter, and cooled in summer.
- (8) Ambient noise shall be below the distraction point. The instructor's voice level shall be easily heard from any position in the classroom.
- (9) The contractor shall comply with safety standards specified by the National Electrical Code, the National Fire Code, and the United States of America Standards Institute in conducting contract training.
- (10) (10) Local environmental distractions adversely affecting student learning shall be eliminated.
- (11) A copy of the Aircraft Flight Manual (AFM) shall be provided each inspector/pilot on the first training day of each training course for the subject aircraft and shall be retained by the inspector/pilot. A "Flight Training Manual" utilized in the contractor's training program which is at least equal in content and quality to the AFM will be an acceptable substitute. Such manuals shall be included within the prices set forth in Part I, Schedule B.
- (12) A copy of the syllabus, training schedule and description of all maneuvers and procedures to be conducted in the training course shall be provided each inspector/pilot on the first training day of each training course.
- (13) The contractor shall use only experienced instructors authorized under their approved training program to instruct under this contract. All instructors used in flight training under this contract shall be authorized by the contractor to conduct all maneuvers and procedures required. The contractor's personnel alone shall be in command of the aircraft utilized in contract performance. At no time shall a FAA pilot/inspector be permitted to assume such command.

(j) The contractor shall provide all fuel, oil, landing fees, storage, and tie-down service. The contractor shall pay for all of these items and for any other costs related to operation and

utilization of each aircraft provided by the contractor for training, reimbursement for which shall be deemed included in the contract price. Each aircraft provided by the contractor shall be operated and maintained in accordance with applicable FAA regulations.

(k) The contractor shall provide all fuel, oil, landing fees, storage, and tie-down service. The contractor shall pay for all of these items and for any other costs related to operation and utilization of each aircraft provided by the contractor for training, reimbursement for which shall be deemed included in the contract price.

(l) Each aircraft provided by the contractor shall be operated and maintained in accordance with applicable FAA regulations.

## **G. PERFORMANCE REQUIREMENTS FOR FLIGHT TRAINING COURSES**

1. The contractor is to provide initial, recurrent, and supplemental training as specified in section 2 (Qualifications) of this performance work statement (PWS) in accordance with their submitted training program. As part of the proposal, the contractor must submit:

- Evidence of an FAA approved training program as described in section D (6) of this PWS.
- Proof of the ownership or lease of the aircraft to be used in training.
- A description of the training aids and facilities in sufficient detail to determine compliance with the requirements of section F (3) (i) (1) through (10) of this PWS.
- Proposed ground and flight training hours in compliance with section F (1) (a) of this PWS and Schedule B.
- Proposed number of training days expected to be required to complete all training and testing for each course.

### **2. Deliverables**

The contractor shall:

- Provide training as specified in their submitted training program.
- Provide the hours of training proposed in Schedule B.
- Commence training upon the inspector/pilot's arrival at the contractor's facility on the date and time agreed upon.
- Provide each inspector/pilot with a POH or substitute in compliance with section F (3) (i) (11) of this PWS.
- Provide a copy of the syllabus, training schedule and description of all maneuvers and procedures to be conducted in the training course to each inspector/pilot on the first training day of each training course in compliance with section F (3) (i) (12) of this PWS.
- Complete the training within the proposed number of training days barring unforeseen circumstances beyond the control of the contractor.
- Provide the COTR with a completed certificate of training signed by both the inspector/pilot and the contractor's instructor and the course critique (Appendix A) within 5 calendar days of the completion of the training.
